MiSign Suite V3.0   Pro Premium

MiSIGN eCom signature solutions

"Create and upload and eSignature enable a document, send email alerts to Signors, internal or external, who can sign wherever they are, with whatever signing device they have at the time, and with whatever signature type is "appropriate""

- Fixed Cost for 3 Years. (includes MiSign Care-Support, Maintenance and Upgrades)
- One license per user who can log in with as many devices as they want.
- Concurrent Log Ins.
- Multiple signature choices on the same document.
- Workflow via email alerts.
- Benefit from significant engineering cost and time savings.
- Deploy faster and with less ongoing maintenance and support.
- Highly secure mobile device capture control with full biometric and digital evidence capture options.
- Combination of Signature Pad, Touch Screen, Interactive Pen Display, Android and iPad (Stylus Pen Pressure Capture).
- Customisation and Integration services available.
- Transmission data is double encrypted for security.
- Forensic standard digital evidence captured for each signor, including biometric data where required, and document content. Data is an encrypted blob inside the document for the lifetime of the document.

"Emulating existing paper and INK Processes digitally out of the box"

"Multiple Digital Signature Types:

Handwritten Biometric, eSeal, Graphic, PKI, Digital Signature, including combinations for the same Signor"
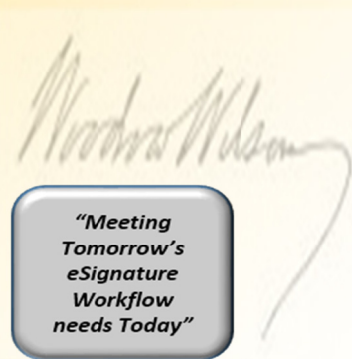

"Can record forensic standard pen pressure"

"Can display pen pressure variants"

"Prepare documents for signing Sign Now or Later"

"Internal/External"

"Can use finger to sign eSeal and Digital Signature on IOS/Android and interactive touch screens."
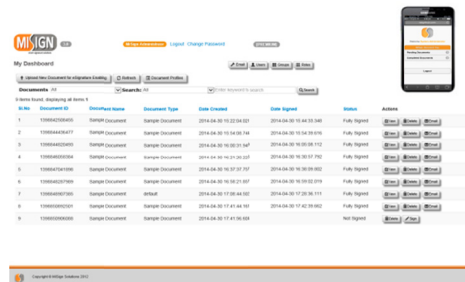

"Office Admin can be used for Management Admins who need to keep records private, as well as uploading documents for workflow."

"Meeting Tomorrow's eSignature Workflow needs Today"

"Dynamic Personal Dashboard-Each user only sees what they are allowed to see"

"One Natural Legal Digital Process"

- Create
- eSignature Enable
- Deliver for Signing
- Save and Distribute

"Security, Digital and Biometric Evidence Captured at time of Signing in one Transparent Process"
