MiSign Suite

"Emulating existing paper Processes digitally out of the box"

"Delivering eSignature enabled documents to the Signor. Wherever they are, and sign with the highest level of biometric data capture. With whatever device they have at the time, with secure log in"

"Sign Now Sign Later"

"Online/Offline/Mobile"

"Multiple Digital Signature Types:

Handwritten Biometric, eSeal, Graphic, PKI, Digital Signature, including combinations for the same Signor"

"Mix Signature Types and Signing Devices on the same document"

"Meeting Tomorrow's eSignature Technology needs Today"

"MiSign Suite is the most advanced and flexible solution we have released in 15 years."

- Previously, our advanced eSignature technology was only available for custom engineering and integration.
- Now available in "Out of the Box" versions, including API, for tight integration as desired.
- Our Premium version GUI is very customisable.
- Benefit from significant engineering cost and time savings.
- Deploy faster and with less ongoing maintenance and support.
- Choice of Wacom or CIC Signature Capture Control including biometric validation and forensic functionality options (including Asian characters).
- Highly secure mobile device capture control with full biometric and digital evidence capture options.
- Combination of Signature Pad, Touch Screen, Interactive Pen Display, Android and iPad.

"Dynamic Personal Dashboard"

"One Natural Legal Digital Process"

- Create
- eSignature Enable
- Deliver for Signing
- Save and Distribute

"Security, Digital and Biometric Evidence Captured at time of Signing in Transparent Process"

- Validate
- Bind
- Verify
- Non Repudiate
- Digital Evidence

"The captured signature data remains embedded inside the document for the lifetime of the document"

"Features"

- ✓ Add on application, therefore is neutral to desktop and data base legacy applications.
- ✓ Prepare a document for signing, print a report, fill out a form, and send to MiSign for eSignature enabling and signing.
- ✓ Small file sizes, ideal for mobile.
- ✓ Scalable from desktop to large enterprise.

"Benefits"

- ✓ eSignature enable your existing office templates quickly and inexpensively.
- ✓ Access your regular business forms from any location and sign.
- ✓ Save on paper document delivery, storage and courier costs.
- ✓ Save on document retrieval costs.

Your Handwritten Signature is like your DNA "Unique"

"This is why the quality of data capture is so important"
